**FF Meta** ERIK SPIEKERMANN | 1985

FF Meta™ was originally (1985) conceived as a typeface for use in small point sizes. Against its intended purpose, FF Meta very quickly became one of the most popular typefaces of the computer era, and has been referred to as the Helvetica of the 90s – not necessarily a compliment. It is used a lot in magazines, from the Normal weight in small point sizes for captions up to the Black version for large headlines.

“The brand value is doubtful, as corporate typefaces can only look so different from other faces. If it looks too weird it won’t last very long, and it’ll only be suitable for advertising.”  
ERIK SPIEKERMANN
